Earthy tones, marble textures, and subtle gold accents create a refined, premium feel without looking heavy.

Clean lines, reflective surfaces, and gentle patterns add depth, making the scene feel both modern and timeless.

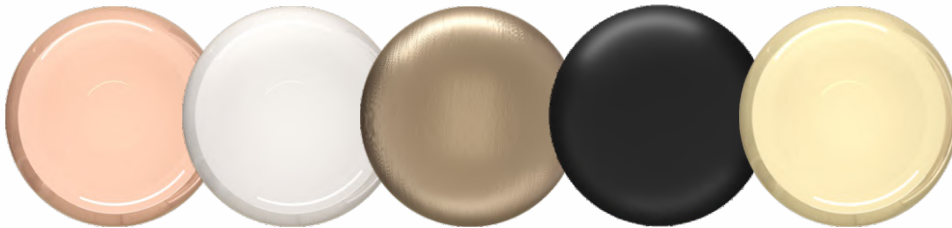

Having multiple views, helps in showcasing every product with complete clarity.

VISUALIZE EVERY FINISH.

Help Customers decide with Confidence.

Seeing your product in every available finish makes the buying decision faster and easier - whether it's for a distributor catalog or a retail customer's Instagram scroll.

CUSTOM FINISHES AVAILABLE

Brands approach us with a Vision

Kohler didn't just want their bath collections shown as standalone products. They wanted them to be seen, felt, and remembered as symbols of luxury living.

We crafted visuals that went beyond product shots—immersive imagery that placed faucets, showers, and vanities inside aspirational spaces, helping homeowners picture themselves living that lifestyle.

The result?

Kohler grew from approx **12000 to 4,33,000 followers** in last 5 years. Content we made was so compelling that it helped Kohler cross **2 Million likes on Instagram**, strengthening their presence as a true global luxury brand.

Bringing brands to life online through powerful visual integration.*

Imagine your latest collection presented with the same breathtaking realism, setting new engagement records for your brand.

LIFESTYLE VISUAL CREATED BY THE NEXT DESIGN

A high-end bathroom interior featuring a white toilet as the central focus. The walls are dark with intricate, multi-layered paneling. Chrome fixtures, including a bidet sprayer, a toilet paper holder, and a door handle, are mounted on the wall. The floor is composed of large, square tiles with a black and white checkered pattern and a marbled texture. The lighting is dramatic, highlighting the textures and materials.

*Everything from your Desk.
We make it simple.*

Bring your products into your
customer's home with
Augmented Reality.

Our visuals don't stop at inspiration. AR let's your customers place bath and kitchen products in their own environment using their mobile phone. Rotate, scale, and view products in real time—before making a decision.

- ◆ **Works directly from mobile browser**
- ◆ **No app download required**
- ◆ **Real-scale product visualization**
- ◆ **Ideal for Retail, Catalogs & Sales teams**

Try It Yourself.

Scan. Place. Experience.

HOW IT WORKS?

Scan the QR code to visit our website and explore our AR samples to see how premium bath and kitchen products come alive in.

Our website - www.thenextdesign.com/kbi/

If you'd like help trying the AR experience, or are interested in creating premium bath and kitchen visuals for your brand, our team is here to assist you. —————>

Here's an example of a vanity for your reference.

STEP 1

Select any product on our website and tap the AR button to activate the augmented reality mode.

STEP 2

Point your phone to the area where you want to place it.

STEP 3

See the product appear in your room - move, rotate and explore it in real time.
